Subject: NRC1098151 and NRC1098153: Mid Valley Pipeline Spill (Mooringsport, LA - Near Caddo Lake)
Date: Monday, October 13, 2014 5:16:13 PM

Hello All:

OSC Rhotenberry and Contractors have been dispatched to an oil spill in Mooringsport, LA near Caddo Lake. Current information indicates that the spill entered the Miller Branch of Tete Bayou and possibly contained (information sketchy) within 0.5 miles of entering Caddo Lake. The spill volume is unknown but the company has listed the potential at about 4000 bbls. Information indicates that response contractors are on-scene.

If you need further information, please contact me until OSC Rhotenberry arrives on-scene and is able to assess the situation.
